

Digital Flight Board

Real-time flight data display

Departure boards have long been an airport standard. Now, with the Uniguest Digital Flight Board, you can offer your guests and customers this same service right within your facility. This digital informative display pulls real-time data of local flight information allowing your guests to be aware of any potential issues with travel.

real time flight information

customized with your logo and corporate colors

ready to use out of the box

horizontal or vertical display

personalized headers and footers with pictures and feeds
