

Free print wizard downloads for your PDA are available at the PrinterOn download center at www.printeron.net.

You will receive an email with your release code to be used at the print release station to securely obtain your print job.

To print an email message or attachment from your wireless device simply forward the email to email.code@printspots.com

Printing from a wireless device

To retrieve your print job, simply go to the print release station at the printer located in the business center and enter your user info to release the print job to the printer.
