

# UNIGUEST PRINT

Secure guest printing from personal devices...  
Whenever, wherever, and without your assistance

## A SCALABLE SOLUTION FOR GROWING DEMAND

Increasingly, hotels and similar types of public settings are offering a service that makes it simple for guests and visitors to print files securely from their personal devices. A game changer at many properties, this service will eliminate those awkward times when the front desk is asked to make prints.

## ANY TYPE OF SMARTPHONE, TABLET, LAPTOP

Meet Uniguest Print powered by PrinterOn®, the secure, cloud-based printing solution that works on any type of mobile device, any operating system platform, and any telecommunications carrier. The flexibility (and convenience) is not only great news for guests and visitors, the front desk staff and IT departments — it can also contribute to the overall brand experience and improve guest satisfaction.

## EVERYTHING YOU NEED FROM ONE PROVIDER

Uniguest manages every aspect of this turnkey solution powered by PrinterOn, the easiest and most widely used cloud printing solution in the world. Uniguest provides a selection of printers, branded and personalized collateral, and 24/7/365 technical support by phone, email, and live chat.

## HOTELIERS ARE IMPROVING GUEST SATISFACTION AND STREAMLINING OPERATIONS WITH CLOUD PRINTING SOLUTIONS FROM UNIGUEST.

### BENEFITS OF THE UNIGUEST PRINT SOLUTION:

- Enables hoteliers to offer file printing from any personal device.
- Unique release codes ensure secure, on-demand document retrieval.
- Guests and visitors have full control over their own printing experience.
- Reduces wait times.
- Increases the availability of business center computers, especially during peak times.
- Front desk staff no longer need to manage printing requests.
- Printers do not have to be connected to a computer to work (this standalone option requires power and an Ethernet connection to the Internet).

### GET UNIGUEST PRINT AS A STANDALONE PRINTER, OR ADDED TO THESE UNIGUEST SOLUTIONS:

- Uniguest Connect Business Center
- Boarding Pass Kiosk
- Uniguest Essentials Business Center

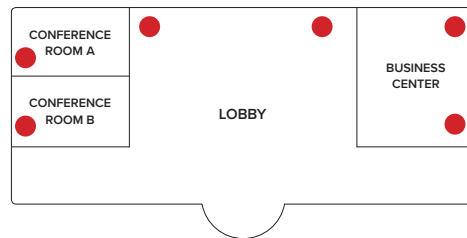

### WHAT DOES THE UNIGUEST PRINT SOLUTION INCLUDE?

- The PrinterOn license (billed annually).
- Your choice of printer with an embedded PrinterOn keypad, or your choice of printer and an external PrintValet Keypad.
- A personalized “How To Use” sticker for the printer.
- 500 key card inserts with “How To Use” instructions (in-room tent cards are available as an add-on item).
- Configuration and activation.
- 24/7/365 technical support by phone, email, and live chat.
- A simple way to reorder printer toner, key card inserts, and in-room tent cards.

## THE UNIGUEST PRINT SOLUTION POWERED BY PRINTERON MAKES IT EASY TO OFFER CLOUD PRINTING IN STRATEGIC LOCATIONS.

Whether a property has the Uniguest Print solution installed on just one printer connected to a business center computer, or if many are deployed as standalone\* printing stations throughout a property, Uniguest has the expertise to keep everything running smoothly. Not sure where to use Uniguest Print? Take a look at where some of our customers have added value to strategic locations:

- Lobbies
- Business Centers
- Conference rooms
- VIP areas
- Collaborative areas

## FACTS & FIGURES

- The Uniguest Print solution powered by PrinterOn is secure, convenient, and gives full control of the printing experience to its users (guests and visitors).
- Files are sent to print from a personal device via email, app, web portal, or the PrintWhere driver.
- 20% of all printing is wasted. This solution helps reduce waste with on-demand printing.\*\*
- 82% of surveyed guests said printing services are the most important aspect of a business center.\*\*
- Uniguest's technical support team, the UCrew, is available 24/7/365 to assist your staff and guests by phone, email, and live chat from our headquarters in Nashville.
- Every Uniguest solution is designed to enhance the overall brand experience and improve guest satisfaction.

\*A standalone printer does not require a computer, but it requires power and a hardwired (Ethernet) connection to the Internet.

\*\*PrinterOn for Hospitality (2016).

## MORE ADVANTAGES AND MORE VALUE

- **BYOD SUPPORT:** Users can send files to print from any smartphone, tablet, laptop, or desktop platform. This is especially attractive to business travelers, who can increase a property's revenue from more room bookings and associated services.
- **SECURE RELEASE:** Unique, secure print release codes ensure confidentiality, and prevents the wrong person from retrieving a user's document. The release code also reduces waste due to the self-serve/on-demand nature of the service.
- **NETWORKS:** PrinterOn connects disparate networks with ease, which means users do not need any technical expertise to use the service. Plus, there is increased security since no user data ever touches the property's networks or computers/servers.
- **MOBILE APPS:** iOS and Android mobile apps make it easy for users to discover printers and print various types of files.
- **SUPPORTED FILE TYPES:** PDF, Word, Excel, PPT, TIFF, JPG, PNG, BMP, GIF, Visio, and OpenOffice (among others).
- **LOCALIZATION:** Mobile apps and web portals are available in 12 languages to accommodate international users.
- **WEB PORTALS:** Web portals are personalized with the customer's logo and color scheme.
- **PAGE LIMITS:** Controls paper waste by setting the number of pages that can be printed.
