

WIRELESS PRESENTATION

The easiest way to share big ideas
and encourage collaboration

With our Wireless Presentation Solution, you can share what's on your laptop or mobile device, on a presentation screen, transforming a meeting into a complete sharing experience with a single click. With simple USB sharing and an easy-to-use app, our wireless presentation solution is simplicity itself. It avoids the unsightly jumble of cables often seen in meeting rooms. It requires no special adapter or port – so there's no need to carry additional wires or rummage under the table. And with no cables, you'll spend less time setting-up and more time being productive.
